# Worcester Medicine Publishes "A Macro Look at MACRA"

BY PETER J. MARTIN • DECEMBER 13, 2016

The Worcester District Medical Society published an article by Peter Martin in the September/October 2016 edition of its bimonthly publication, *Worcester Medicine*, discussing changes brought about by the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA). MACRA will introduce a scoring system for many Medicare-participating physicians. Data collected beginning in 2017 will affect physician reimbursements in 2019.

You can read "A Macro Look at Macra" on page 16 of the September/October 2016 issue of Worcester Medicine on the Worcester District Medical Society's website.
