Worcester Medicine publishes “The Line Between Help and Harm: The Medical Consensus of Conversion Therapy for LGBTQ Minors”

JANUARY 26, 2017

The Worcester District Medical Society published Jennifer Garner’s article in the January/February edition of its bimonthly publication, *Worcester Medicine.* The article clarifies the commonly misunderstood distinction between biological sex, gender identity and gender expression. It also discusses the modern medical consensus surrounding “conversion therapy” and current Massachusetts legislation aimed at banning the practice.

You can read “The Line Between Help and Harm: The Medical Consensus of Conversion Therapy for LGBTQ Minors” on page 19 of the January/February issue of Worcester Medicine on the Worcester District Medical Society’s website.
