Paul Bauer Moderated “Why Worcester – Building and Supporting a Life Sciences Cluster” at The Reactory Summit

The Reactory Summit 2022 Program provided a full day of networking and a forum for biotech and pharmaceutical executives, investors in life sciences companies, builders, developers and leaders from Contract Development Manufacturer Organizations who engaged in the exchange of ideas, best practices, opportunities and latest trends in biomanufacturing, as well as the future of life sciences in Massachusetts.

Paul Bauer moderated a panel that discussed “Why Worcester – Building and Supporting a Life Sciences Cluster,” as part of the full-day summit program.
