Bob Cox Moderated "EBC Leadership Program with U.S. EPA Regional Administrator Dr. David Cash"

On May 19, the Environmental Business Council (EBC) of New England Leadership Program featured Dr. David Cash, newly appointed Regional Administrator for the U.S. Environmental Protection Agency – Region 1. Dr. Cash has spent his career in public service harnessing science, innovative policy, and participatory decision-making to solve challenges and seize opportunities at the intersection of environment, economy, and equity. The program served as an introduction to the programs, priorities, and implementation strategies for EPA's Region 1 office under the leadership of Dr. Cash. The event was an excellent opportunity to hear directly from the region's EPA leadership about regulatory programs and strategies that will impact New England's environmental and energy industry.

Following the presentation, Bowditch Partner Bob Cox moderated a discussion of critical issues with the Regional Administrator and the audience.
