Bob Cox Presented the LSP Association Webinar “The MCP for Everyone: A Practical Understanding of the Massachusetts Contingency Plan”

Bob Cox presented the LSP Association webinar “The MCP for Everyone: A Practical Understanding of the Massachusetts Contingency Plan” on May 9, 2023. The program was designed for non-Licensed Site Professionals (LSP) who needed a general working knowledge of the Massachusetts Waste Site Cleanup Regulations, better known as the Massachusetts Contingency Plan (MCP). It was also beneficial for LSPs who wanted a comprehensive review of the MCP.

Bob was joined by five senior environmental professionals, including three LSPs, and a risk assessment specialist. The program was intended as a practical application for attendees to gain an understanding of the process, pitfalls and timelines and learn what to expect from the MassDEP.
