Lynette Paczkowski Authors Chapters in Massachusetts Deposition Practice Manual

FEBRUARY 17, 2026

Lynette Paczkowski authored Chapter 1 “Goals and Strategies” and Chapter 5 “Preparing to Defend a Deposition” in the newly released 5th edition of the *Massachusetts Deposition Practice Manual* published by Massachusetts Continuing Legal Education.

The manual is a resource for litigators across the Commonwealth, offering practical, experience-based guidance on the art and strategy of depositions. It provides trial lawyers with strategic insights for success, training them to ask the right questions, negotiate the trickier topics, and interject the key objections to use depositions to “win” the case.
