## Mike Sams Discussed Top 5 Construction Contract Issues for Massachusetts Contractors

[Mike Sams](#) co-presented a virtual Legal Roundtable Lunch & Learn, *Top 5 Construction Contract Issues*, on February 26, 2026, for the Associated Builders and Contractors Massachusetts Chapter.

The program focused on the most common contract and payment risk issues facing contractors and construction professionals today. These risks often arise when contract terms are unclear, incomplete or not properly enforced, leading to financial loss, disputes, delays or non-performance. Attendees learned practical strategies to proactively identify, manage, and minimize those risks before they escalate into costly disputes.
