Bowditch Recognized by BTI for Most Improved in Litigation

NOVEMBER 19, 2026

Bowditch has been recognized nationally for most improving its litigation services, earning a spot on the *BTI Law Firms Most Improved in Litigation* list.

In today's more contentious legal environment, corporate counsel look to firms who can get ahead of litigation, turn the aggression to their advantage, and successfully win the case. Surveying over 350 corporate counsel, BTI asked corporate counsel to name firms that have most improved their litigation prowess the most over the past year. From across the country, 50 law firms were named more frequently.

"Each of these firms not only brings new ideas, approaches, and an aggressive stance – they bring a certain level of passion and confidence clients don't see elsewhere," said Michael Rynowecer, President of BTI Consulting Group.

At the beginning of 2026, Bowditch strategically fortified its litigation department by merging with Kenney & Sams, resulting in a business litigation practice area of 20 litigators in addition to 30 more trial lawyers focusing in family law, employment law, and probate litigation. Bowditch offers comprehensive litigation and dispute-resolution services for businesses, individuals, insurers, developers, and public entities. Our litigation team is known for its strategic, results-driven approach, focusing on efficient resolutions while remaining fully prepared to advocate aggressively in court when necessary.
