

Design and Construction Projects: Legal, Contracting, Procurement, and Risk Management Literacy

BY MARY T. FEENEY • FEBRUARY 4, 2015

Plan for the upcoming construction season by taking a fresh look at your design and construction contract forms and practices, methods of procurement, and planning for environmental risks whether for new buildings, renovations and upgrades, or infrastructure improvements.

Topics will include:

- 12 highly recommended owner provisions to include in construction agreements (and a few for design contracts too)
- Managing contaminated soil and building materials to avoid liability risks
- Risk management considerations when undertaking capital projects
- Legal updates: contract changes for new retainage law, update on MA soil disposal options, and expected guidelines and regulations for reclamation soils

Attorneys Speaking:

- Mary Feeney
- Robert Cox, Jr.

Breakfast or lunch will be served. There is no cost to attend.

Register for a session by clicking on the location below.

WORCESTER at Bowditch & Dewey on March 13, 2015 from 7:30 – 9:30 am

SOUTH HADLEY at the Willits-Hallowell Conference Center at Mount Holyoke College on March 20, 2015 from 12 noon – 2:00 pm
