

CASE STUDY

Obtaining a permit in a complex design, planning and zoning project

OVERVIEW

A large, regional developer needed to get permit approval to close the acquisition of a site in MetroWest, a former big-box retail facility slated for mixed-use commercial and residential reuse. While there wasn't a lot of opposition, it was an oddly-shaped site and needed a creative site plan and design. We quarterbacked a team comprising civil, traffic and stormwater engineers and architects to address key issues, such as traffic and pedestrian accommodations. The permit was issued, and the project has ramped up for construction.
