Mass. Joins Feds – Personal Income Tax Filing Deadline Now July 15

BY BOWDITCH & DEWEY • MARCH 27, 2020

Governor Baker and the Massachusetts Department of Revenue have announced that personal income tax returns and payments due April 15, 2020 are now due July 15, 2020. The Department of Revenue has stated that detailed guidance will be made available shortly. Massachusetts has not provided guidance on relief for late corporate, partnership, or trust income tax returns. Estate tax returns are also not covered by the announcement. We are available to work with clients on how to address the filings of these returns.
